

## **Conversation Guide to Accompany Webinar Series**

### **Coaching Academy 2010-2011**

These learning opportunities were made possible through funding provided by Alberta Education, in partnership with Learning Forward. This series of webinars, to enhance the Coaching Academy face to face sessions, were designed to support Alberta Educators in understanding the role(s) and responsibilities of Learning Coaches & Coaching Teams in supporting the learning success of all students within a culture of inclusivity in Alberta schools.

As schools and districts build capacity and plan purposefully for inclusivity and planning to support teachers in their classrooms, the Conversation Guides and archived webinars will provide valuable information and learning for professional learning groups and individuals striving to enhance their practice.

Topics for the 3 webinars are: Roles of Learning Coaches

Change & Resistance
