AM: This session will provide teachers and administrators with information about the design and development of the new Mathematics 30-1 Diploma Examination and the new Mathematics 30-2 Diploma Examination. The draft blueprint of these diploma examinations will be shared and the types of questions that may be used to assess students' conceptual understanding and learning will be discussed. Participants will have the opportunity to ask questions and to clarify their understanding of the diploma examination assessment process in mathematics.

PM: Participants will also be given the opportunity to develop some machine-scored items for their classrooms. Electronic item-writing forms will be provided for those who want to bring laptops.
