Please visit our Website at www.sapdc.ca to register!

This session will provide information about the purpose of the Mathematics 9 Provincial Achievement Test (PAT) and its connection to The Alberta K - 9 Mathematics Program of Studies. You will have an opportunity to analyze your school results and to talk with colleagues about issues related to student performance at the provincial level and at your individual classroom levels.

Sample items from the 2011 Math 9 PATs, and from new field tests, will be shared to help illustrate how the test has changed over the past few years. You will also have the opportunity to engage in conversation that is specifically related to the Math 9 PAT and to the provincial assessment program in general.

Kelly Rota is currently the Alberta Education Mathematics 6 and 9 Team Leader. Prior to coming to Learner Assessment in 2004, he worked in various roles within Alberta's education system including that of teacher, school administrator, and field pedagogical supervisor.
