## Program

Did you know that the brain has a backdoor for learning that's easily hacked into? Using brain science as a road map, discover how to transform hard letter sounds and phonics skills into child's play by targeting "backdoor" social and emotional systems for learning! Fast-Track individual letter sound mastery in just two weeks to two months by harnessing the instructional power of "what's used together becoming fused together" in the brain. Take advantage of learning loopholes rooted in brain plasticity and discover why "what's used together becomes fused together" in the brain. Hack into our system for learning with powerful teaching tools that will leave you armed and ready for Monday morning!

## Presenters

**Katie Garner**

**Katie Garner, M.Ed.** (author of best-selling book, *Secret Stories® Cracking the Reading Code with the Brain in Mind*) is an internationally known keynote speaker, author and literacy consultant with thirty years of experience working in elementary grade classrooms across the country, and a passion for infusing neuroscience into literacy and learning!

Katie's "backdoor-to-the-brain" approach to fast-tracking phonics skills for reading, via social-emotional learning systems, shifts the paradigms associated with beginning literacy skill instruction. Her fast-paced, dynamic presentations spotlight brain-changing strategies for boosting existing reading curriculum and phonics instruction with the latest reading science showing how our brains learn best. Katie's practical and proven methods for bringing neuroscience into the forefront of literacy and learning have been the subject of numerous professional journal articles, and have been shared in both lecture and panel discussions at Harvard University and MIT.
