Program

Microsoft 365 EDU brings conversations, content, and apps together in one place, streamlining work flow for administrators and allowing staff to create vibrant, personalized learning environments. Join this workshop to learn how you can create collaborative classrooms, personalize learning with assignments, connect with colleagues, and streamline faculty communication. Learn to supports staff-to-staff collaboration as well as class collaboration and communication. In short, Microsoft EDU is a one stop shop that can help with educator administrative and classroom tasks, saving faculty time.

If you would like to attend this session in person please register here.

Presenters

Mario Asta

Asta B.Comm | B.Ed | MBA is currently the Director of Learning and Development at Logics Technology. Mario is an innovative educator, marketing strategist, and a technology expert with more than 13 years of expertise creating impactful solutions for high profile clients around the world. He has spent the past 5 years working at Microsoft Canada as the Program Manager of Microsoft Modern Classroom Experience, providing professional learning opportunities for teachers and classrooms. Mario is an experienced Microsoft Certified Trainer who has trained more than 10,000 educators and has worked closely with leadership teams to support the implementation of technology in a variety of school districts. As a certified elementary educator with several years of experience teaching in Grade 5 Ontario classrooms, Mario pairs a broad range of creative leadership experience and has a deep understanding of pedagogical workflows. Mario has recently moved back to his hometown in GTA Ontario, after living in British Columbia supporting western Canada education for a few years. He is kind, patient, approachable and loves helping people leverage technology to the fullest.
