Program

Come and learn the basics of Desmos. You will have time to play, learn and tinker with this amazing program. For early grades you can use premade activities to engage students in number sense and fraction properties, and for later grades we will learn how to have students explore and discover properties of linear, quadratic, exponential functions. You will see transformations come alive!!

Presenters

Dave Martin

Dave Martin has a Master of Mathematics, a Bachelor's degree in Education, and most importantly a Love for Learning. Throughout his career, he has challenged many traditional educational practices such as homework, tests, and even grading. Currently as a High School Vice-Principal, Dave has the opportunity to lead and learn with teachers and students. You will find Dave tinkering with code, playing with mathematics, or counting by prime numbers.
